WE INVITE YOU TO THE EVENT: Introducing technology for caregivers of older adults

13. may 2024 – 10:00-13:30

InnoRenew CoE (Livade 6a, 6310 Izola, Slovenia) and online

We invite you to a unique event where we will present innovative technologies designed to facilitate the care of older adults. Join us and discover how technology can bring you easier control and peace of mind while improving the quality of life for older adults.

The meeting will also be an opportunity to learn about the various technological devices and tools from the European Pharaon project, which is taking place in five European countries. The goal of the project is to improve the quality of life, social inclusion, independence and general health of older adults and their caregivers.

In addition to the opportunity to test existing technologies, we will inform you about the current state and developments in the field of technological assistance for older adults. Your opinion about these technologies is important, so we are happy to listen to your experiences and observations.

Details about the event:

 Date: 13. May 2024

 Time: between 10:00 and 13:30

 The place of the event: InnoRenew CoE (Livade 6a, 6310 Izola) or online

The event is free of charge.
